(54) Title: PANEL WITH LIGHT PERMEABLE IMAGES

## (57) Abstract

A panel comprising a sheet (2, 21, 23, 310) of light permeable, preferably optically clear transparent, material and a transparent or translucent design (16, 43, 63) superimposed on or forming part of a transparent or translucent base pattern (22, 64, 83). The design is visible from one side of the panel and a mirror image of the design is visible from the other side of the panel when a sufficiently high level of illumination is provided on either side or both sides of the panel.
